

MEDIUM LEVEL ORDER PICKER 0.5T 3200

The JX1 is ideal for retail distribution centers, e-commerce warehouses, and logistics hubs that require fast and safe picking at medium levels. Thanks to its compact 800 mm chassis, strong and steady design, and maintenance-free AGM battery, it operates reliably in narrow aisles. Optional large lead-acid batteries and simple battery exchange systems provide extended runtime for multi-shift operations.

Features

High picking reach

With a maximum platform height of 4.8 m and picking height of 6.3 m, the JX1 ensures efficient access to medium-level racking for fast and precise order fulfillment.

Compact and agile design

At only 800 mm wide with a turning radius of 1385 mm, it is perfectly suited for narrow aisle operations, providing excellent maneuverability in tight spaces.

Efficient and reliable battery system

Equipped with a 24V/224Ah maintenance-free AGM battery, the JX1 also supports optional large lead-acid batteries and simple exchange systems for continuous operations.

Safe and ergonomic operation

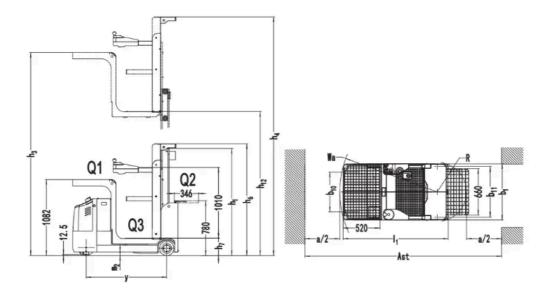

Electronic steering, electromagnetic brakes, and excellent mast visibility ensure operator confidence, while ergonomic controls enhance comfort during long shifts.
