

Narrow aisles: This counterbalance forklift is suitable for a range of applications including indoor warehousing and narrow-aisle operations, with a turning radius from 1,450 mm (CPD15TVL) to 1,585 mm (CPD20TVL).

Loading/unloading: It delivers excellent performance for loading and unloading at docks or side-bay lorries, powered by its robust 80 V battery. Ideal for the rental market thanks to its opportunity-charging capability.

Operator type			Seated
Load distance, centre of drive axle to fork		mm	420

Features

80 V system delivering powerful performance

The 80-volt 2×5.0 kW dual-drive motors offer higher power efficiency than conventional 48-volt systems, enabling the TVL series to deliver up to 6 hours of operation per charge.

Spacious workspace

Thanks to the compact EP lithium battery and the ergonomic layout of the control levers and foot brake pedal, the compact truck provides generous legroom of 394 mm and excellent operator comfort.

Compact truck size

The TVL series features a small turning radius — 1,450 mm for the CPD15TVL, 1,550 mm for the CPD18TVL and 1,585 mm for the CPD20TVL — making it an ideal workhorse for small warehouses with narrow aisles up to 3.5 m wide.

Integrated charger

The TVL series forklift is fitted with an EP Li-ion battery and a 35 A single-phase integrated charger with a 16 A plug, allowing charging from most power outlets (except 10 A and 13 A domestic plugs in Switzerland and the UK).

Enhanced mast for optimal visibility & stability

The TVL series uses the same high-strength mast as the CPD20L2, providing excellent all-round visibility and strong stability with reduced wobble even when fully loaded.
