

DS3

ELECTRIC STACKER

 1500 kg  3918 mm  24 V Li-Ion

The DS3 is designed for low- to medium-intensity stacking, loading, and transportation tasks in warehouses, retail stores, and small distribution centers. Its compact size and tight turning radius make it ideal for operations in narrow aisles, shop floors, and production areas. Whether stacking pallets on racks or moving goods in storage rooms, the DS3 ensures reliable, quiet, and energy-efficient performance across multiple industries

SPECIFICATION	REF	UNIT	VALUE
Battery type			Li-Ion
Battery nominal capacity		Ah	80
Battery voltage		V	24
Load capacity	Q	kg	1500
Load centre distance	c	mm	600
Service weight		kg	540
Retracted mast height	h ₁	mm	2067
Height, mast extended	h ₄	mm	3532
Overall length		mm	1727
Overall width	b ₁ /b ₂	mm	834
Length to face of forks	l ₂	mm	577
Fork dimensions	s/e/l	mm	75/170/1150
Turning radius		Wa	1470
Operator type			Pedestrian
Load distance, centre of drive axle to fork		mm	802
Wheelbase		mm	1210

Features

Compact and maneuverable design

The DS3's short chassis length and 1470 mm turning radius allow easy operation in narrow aisles and tight warehouse spaces. This makes it ideal for facilities where every centimeter counts, without compromising lifting performance.

Reinforced mast for superior durability

An enhanced dual-chain mast design improves rigidity and ensures long-term reliability under continuous use. The iron mesh guard provides operator protection while maintaining clear visibility during stacking and retrieval.

Maintenance-free power and built-in charger

The DS3 is equipped with a 24 V/80 Ah AGM battery and a 24 V/10 A internal charger, allowing convenient on-board charging with no special equipment required. For more demanding applications, a Li-ion option is available for extended runtime.

Safe and ergonomic operation

The EP large tiller head with fingertip controls and a turtle-speed mode ensures precise control during slow maneuvers. The DS3 also features automatic speed reduction when the mast is elevated, enhancing safety and stability during high lifts

VDI Chart

	SPECIFICATION	REF	UNIT	VALUE
1.4	Operator type			Pedestrian
1.5	Load capacity	Q	kg	1500
1.6	Load centre distance	c	mm	600
